Slow worm (*Anguis fragilis*)

## Professional Ecological Surveys and Solutions

Great crested newt (*Triturus cristatus*)

J Taylor Ecology Consulting is an ecological consultancy with a difference. Our great strength is our deep understanding of engineering and construction, which enables us to understand the needs of our clients in a unique way. Using this knowledge we are able to develop pragmatic, practical and proportionate solutions to ecological problems, in a way that is achievable on the ground.

We are able to offer a broad range of ecological services tailored to your needs. Commercially focused, you will receive an excellent level of service, with clear, concise and practical advice.

### TRACK RECORD

Established in 2011, **J Taylor Ecology Consulting** aims to be a leading provider of ecological consultancy services. We are a preferred supplier to a wide range of organisations throughout the UK, having worked for Thames Water, Linden Homes, Bellway Homes, EDF Energy and Network Rail.

### COMPLIANCE

We have extensive experience of working with statutory and non-statutory regulators to ensure you remain compliant with all relevant legislation and codes of practice.

### PROFESSIONAL

Using a carefully selected network of trusted professional ecologists we are able to offer complete solutions to all ecological issues. Our consultants have a unique combination of insight and practical experience, underpinned by robust, informed, science based information. All are fully qualified and members of the Institute of Ecology and Environmental Management (IEEM) and adhere to its Code of Professional Conduct.

For more information on any of our services please go to:
